Important Notice Prior to Assembly!!

- Be careful when cutting the ties from the frame! There may be some tension.
- Straighten out the frame and mould / bend into a suitable arch for your pet bed. (This will allow the strap to hold tension on the feet in the correct position).
- If you find the frame is too big for your pet bed (too high). Consider measuring to your preferred height and cutting the frame from one end to reduce the height.

For full assembly instructions please turn over.

Thank you for your purchase, and we hope your pet loves their new Petcave.
